EDUCATION

- **Graphic Era Hill University, Dehradun** Dehradun, Uttarakhand
B.Tech in Computer Science and Engineering; CGPA: 7.01
July 2022 – July 2026
- **The Sapience School, Vikasnagar** Vikasnagar, Uttarakhand
Higher Secondary School (Class XII); Percentage: 76.67%
March 2021 – March 2022
- **Army Public School, Shankar Vihar, New Delhi** New Delhi, India
Secondary School (Class X); Percentage: 76.83%
March 2018 – March 2019

PROJECTS

- **Smart Call Center Optimization (AI, IVR) - Jan 2025 – Feb 2025:**
Analyzed call center performance metrics such as Average Handle Time (AHT), Average Speed to Answer (ASA), and call volume trends to identify operational inefficiencies.
Developed and implemented Machine Learning models for call reason classification and call routing optimization.
Performed data cleaning, feature engineering, and model tuning to improve prediction accuracy.
Delivered insights through dashboards and visualization reports, enabling automation of frequent customer queries and reducing agent workload.
GitHub Repository
- **Stock Price Prediction (ML + Rule-Based) - Oct 2024 – Dec 2024:**
Developed an end-to-end stock price prediction system integrating Machine Learning algorithms with rule-based heuristics.
Conducted historical market data analysis, feature selection, and model evaluation using Mean Absolute Error (MAE).
Built interactive dashboards with trend analysis and real-time visualizations for comparing model performance.
Implemented CSV upload functionality to allow users to analyze custom stock datasets and generate insights.
GitHub Repository
- **Predicting Addiction Based on Personal and Social Factors - Sep 2023 – Nov 2023:**
Built a Machine Learning-based prediction system to assess addiction risk using personal, social, and behavioral attributes.
Performed data preprocessing including missing value handling, normalization, and feature engineering to improve model reliability.
Trained and evaluated classification models using Python libraries to measure performance and interpret results.
Identified key influencing factors to support data-driven insights for early intervention and preventive strategies.
GitHub Repository

CERTIFICATIONS

- **OCI Foundation Associate Certification:**
Earned Oracle Cloud Infrastructure (OCI) Foundation Associate certification (Feb 2025).
Demonstrating knowledge of core cloud services and cloud concepts.
View Certificate
- **NPTEL – Fundamentals of Cloud Computing:**
Successfully completed NPTEL certification (Oct 2023).
Gaining foundational understanding of cloud computing models and services.
View Certificate

SKILLS

- **Proficient:** C, C++, Python
- **Comfortable:** Object-Oriented Programming, SQL, NumPy, Pandas, Matplotlib, Jupyter Notebook, VS Code
